PROFESSIONAL SUMMARY

Palakollu, Andhra Pradesh, 534260

Final-year Computer Science student and aspiring Full Stack Developer with hands-on experience in JAVA Full Stack and the MERN Stack. Skilled in building and deploying production-grade web applications and RESTful APIs, with a strong foundation in data structures, object-oriented programming, and database design.

Passionate about writing clean, scalable code and learning modern full-stack technologies.

EDUCATION

Smt.B.Seetha Polytechnic

Diploma in Computer Engineering - 77.35%

June 2021 – April 2024

Bhimavaram, Andhra Pradesh

Swarnandhra College of Engineering and Technology

Bachelor of Technology in Computer Science & Engineering - 7.47 CGPA

July 2024 – July 2027

Narasapuram, Andhra Pradesh

EXPERIENCE

WEB DEVELOPER INTERN

June 2023 – November 2023

R.K.InfoSystems

Hyderabad, Telangana

- Developed a QR-based Dine-in Reservation app (ReactJS, Java SpringBoot, MySQL) supporting 10+ tables and 200+ daily orders.
- Designed RESTful API endpoints enabling real-time order synchronization across 10+ tables, applying Java Full Stack practices.
- Resolved 15+ functional bugs pre-deployment with senior developers, improving code quality and stability.

SLG Milk Dairies Billing System **Freelance**

June 2026 – July 2026

SLG Milk Dairies

East Godavari, Andhra Pradesh

- Independently architected and deployed a production Billing & E-commerce platform (React.js, Express.js, Node.js, MongoDB) processing 150–200 invoices/day across 80+ SKUs.
- Automated invoice generation via WhatsApp Cloud API integration, reducing manual effort and speeding up daily billing for accountants.
- Deployed production infrastructure on an Ubuntu VPS with Nginx & PM2, maintaining 0 downtime since launch.

TECHNICAL AND SOFT SKILLS

Programming Languages: C, Java, Python

Front end: HTML, CSS, Bootstrap, JavaScript, React.Js

Back end: Node.js, Express.js, Java Servlets, Java SpringBoot, RESTful API Design, MVC Architecture

Databases: MySQL, MongoDB, Database Design & Normalization

Tools & Practices: Git, GitHub, VS Code, Eclipse, Agile/SDLC, Debugging & Testing, Nginx, PM2, Linux (Ubuntu VPS)

Data Analysis: Data Cleaning (Pandas), Data Visualization (Matplotlib, Seaborn)

Soft Skills: Problem-solving, organizational skills, ownership, cross-functional collaboration, adaptability

PROJECTS

ToDo Application | | *React.Js, Bootstrap CSS, React toastify*

May 2025 – June 2025

- Developed a responsive, single-page React.js UI supporting 4 task actions (add, edit, delete, complete) with localStorage-based persistence.
- Integrated React Toastify to deliver real-time notifications across all 4 task actions, improving user interactivity.

StocksApp | | *React.Js, Bootstrap CSS, Finnhub API*

July 2025 – August 2025

- Designed a responsive stock market dashboard in React.js with clean navigation and interactive UI components.
- Integrated the Finnhub REST API to render 4 real-time metrics (price, high/low, volume, market cap) per stock, applying asynchronous data handling.

Mini Trello | | *React.Js, Express.js, Mongodb, Socket.IO*

April 2026 – May 2026

- Built a full-stack multi-user task management system with a 3-column workflow (To Do, In Progress, Done) and secure authentication using React, Express.js, and MongoDB.
- Implemented real-time task creation, updates, and synchronization via Socket.IO, validated across 5+ concurrent users.

CERTIFICATES

Web Dev Intern – R.K.InfoSystems | Python 101 for Data Science | Data Visualization Using Python | Data Analysis with Python | AWS Academy – Data Engineering
